X(CBSE)	St Anne's High School	93.4%	2021

Experience

- **SheFi Scholar (Season 17)** *Remote*
  SheFi July 2026 – Present
  –Actively learning in an intensive 4-week cohort to explore and develop skills in **Web3, Crypto, DeFi, and AI** alongside a global community of builders and founders.

Achievements & Certifications

- **Secured 3rd Rank in Dynamic Programming Completion Test** and earned a **50% Scholarship** in AlgoUniversity's DP Theory Programming Camp, covering Dynamic Programming, Matrix Exponentiation, and Sqrt Decomposition.
- **Solved 400+ DSA problems** across LeetCode, Codeforces, HackerRank,and other coding platforms.
- **AWS Cloud Computing Workshop – Mastering AWS Container Services**, conducted by Techniche, IIT Guwahati.

Projects

- **Uber Clone — Full Stack Ride Booking Application** *2026*
  MongoDB, Express.js, React, Node.js, Socket.IO, Tailwind CSS
  –Engineered a **full-stack MERN platform** featuring concurrent user and driver portals, securing **role-based access** with **JWT**, **bcrypt**, and database-driven **token blacklisting**.
  –Integrated **Socket.IO** for **bidirectional communication**, facilitating **live location tracking**, **dynamic ride matching**, and seamless global state synchronization via **React Context API**.
  –Leveraged **mapping APIs** to calculate **dynamic routes**, travel times, and **fare estimates**, delivering a highly responsive user interface optimized with **Tailwind CSS** and **Vite**.

- **Zivro — AI-Powered Home Service Marketplace** *2026*
  React 18, Tailwind CSS, Vite, Framer Motion, Recharts, Axios, PWA
  –Engineered a responsive, installable **Progressive Web App (PWA)** using **React 18** and **Tailwind CSS**, featuring a custom dark theme and offline capabilities via **Service Workers**.
  –Built dynamic interfaces for **urgency-based price quoting**, **GPS location picking**, and AI image analysis, integrating **Framer Motion** for fluid transitions and real-time **nearby worker animations**.
  –Integrated RESTful APIs via **Axios** to facilitate secure **JWT authentication** and **Razorpay** checkouts, and developed a comprehensive admin dashboard with interactive data visualizations using **Recharts**.

- **Media Search Application** *2026*
  React, Redux Toolkit, Tailwind CSS, Axios, REST APIs
  –Engineered a responsive web application using **React.js** and **Vite**, utilizing **Redux Toolkit** for global state management and **React Router DOM** for seamless client-side routing.
  –Integrated multiple third-party REST APIs (**Unsplash, Pexels, Tenor**) via **Axios** to dynamically fetch and display high-quality photos, videos, and GIFs across dedicated tabs.
  –Developed a persistent personal media collection feature using **Local Storage**, optimizing the UI with **Tailwind CSS** and providing real-time action feedback via **React Toastify**.

Technical Skills

- **Programming Languages**: Java, Python, C, JavaScript, SQL
- **Libraries & Frameworks**: React.js, Node.js, Express.js, Redux Toolkit, Tailwind CSS, Framer Motion, Mongoose, React Router, Socket.IO, Axios, Pandas, NumPy, Matplotlib
- **Database**: MySQL, MongoDB
- **Tools & Technologies**: Git, GitHub, VS Code, IntelliJ IDEA, Vite, Postman, REST APIs, Jupyter Notebook, PyCharm

Key Courses Taken

- **CSE & Maths**: Data Structures and Algorithms, Computer Organization & Architecture,Operating Systems, Database Management Systems, Artificial Intelligence, Discrete Mathematics, Probability

Positions of Responsibility

- **Event Management Team Member**, Yuvaan 2025 *Feb 2025 – Mar 2025*
  –Worked with a **12-member team** to plan and execute multiple events.
  –Handled coordination and on-ground management to ensure smooth execution.
- **Public Relations Team Member**, I&E Cell – Inizio 2025 *Jan 2025 – Dec 2025*
  –Managed outreach and promotion for **Inizio 2025**.
  –Coordinated with a **10-member team**, contributing to the first edition's success.
